- Tongji University (www.tongji.edu.cn),
- Tsinghua University (www.tsinghua.edu.cn), and
- the IStructE China Group.

The Conference is held in Beijing on 28 and 29 October 2013, and in Shanghai on 31 October and 1 November 2013 featuring keynote lectures as well as presentations in parallel themed-based sessions.

**The Institution
of Structural
Engineers**

由英国结构工程师学会 (www.istructe.org)、清华大学 (www.tsinghua.edu.cn)、同济大学 (www.tongji.edu.cn)、英国结构工程师学会中国分部联合组办的 IStructE 结构工程防灾减灾国际会议 (*sehm2013*), 将分别于 2013 年 10 月 28 日和 29 日在北京、10 月 31 日和 11 月 01 日在上海举行。

The IStructE

The Institution of Structural Engineers (www.istructe.org) is the world's largest membership organisation dedicated to the art and science of structural engineering. The Institution has over 27,000 members working in 105 countries around the world. The Institution is an internationally recognised source of expertise and information concerning all issues that involve structural engineering and public safety within the built environment.

The Institution has three core values to support the roles of the structural engineers around the world:

- Professional standards striving for continued technical excellence; advancing safety and innovation across the built environment.
- Celebrating excellence and promoting greater understanding of the structural engineering profession by sharing the achievements and milestones of the industry with the public.
- Sustainability supporting structural engineers as they protect, influence and advance environmental development responsibly.

The IStructE China Group was formally established in 2002. To better represent IStructE members and their interests in the major cities of China, three sub-groups were developed, and they are currently based in Beijing, Shanghai and Shenzhen.
